E-readers remain popular at library and number of pre-loaded titles continues to grow

E-readers. Have you had the chance to try one yet? If you’re about to leave for vacation or you just want to carry a lighter load on your train ride to work, the e-reader is perfect for you.

The Library has two Kindles that come pre-loaded with the best fiction and non-fiction titles. Of the 46 titles that we currently carry, some of the fiction titles include the hugely popular Norse Mythology by Neil Gaiman, The Underground Railroad by Colson Whitehead and The Whistler by John Grisham. Some non-fiction choices are the memoir Hillbilly Elegy by J.D. Vance and The Case Against Sugar by Gary Taubes.

What’s so nice about our e-readers is that they’re lightweight and small—about the size of a paperback—but you can adjust the font to any size that works for you.

You can check out a Kindle for two weeks and renew it for another if no one is on the wait list. Just another convenient way to take your Library with you, wherever you go!

The 2016 Oscar Nominee for Best Foreign Language Film!

1916. While war rages in the Ottoman Empire, Hussein raises his younger brother Theeb in a traditional Bedouin community that is isolated by the vast, unforgiving desert. The brothers’ quiet existence is suddenly interrupted when a British Army officer and his guide ask Hussein to escort them to a water well located along the old pilgrimage route to Mecca. So as not to dishonor his recently deceased father, Hussein agrees to lead them on the long and treacherous journey. The young, mischievous Theeb secretly chases after his brother, but the group soon find themselves trapped amidst threatening terrain riddled with Ottoman mercenaries, Arab revolutionaries, and outcast Bedouin raiders. Naji Abu Nowar's powerful and assured directorial debut is a wondrous “Bedouin Western” about a boy who, in order to survive, must become a man and live up to the name his father gave him.

This wonderful film is an adaptation of Jane Austen's novel Lady Susan in which a beautiful young widow Lady Susan Vernon (Kate Beckinsale) visits her in-laws’ estate while waiting for social chatter about her personal indiscretions to pass. While there, the intelligent, flirtatious, and amusingly egotistical Lady Vernon decides to secure a husband for herself and her rather reluctant daughter, Frederica. Enlisting the assistance of her old friend Alicia (Chloe Sevigny), Lady Vernon attracts the simultaneous attention of the young, handsome Reginald DeCourcy, the rich and silly Sir James Martin and the divinely handsome, but married, Lord Manwaring, severely complicating matters.

This award-winning movie from 2007 centers on a supernatural mystery that combines romance, politics and magic. It stars Academy Award nominees Edward Norton and Paul Giamatti as two men pitted against each other in a battle of wits: Norton as mysterious stage magician Eisenheim, and Giamatti as Vienna's shrewd Chief Inspector Uhl, with Jessica Biel sharing the screen as the beautiful Sophie von Teschen. When word of Eisenheim's astounding illusions reaches the powerful and pragmatic Crown Prince Leopold (Rufus Sewell), he attends one of the magician's shows in order to debunk Eisenheim during the performance.

The New Jersey Council for the Humanities Presents
“The Roebling Legacy”
on Wednesday, May 10 at 7:00 pm

NEW JERSEY COUNCIL
FOR THE HUMANITIES
This program is funded by the Horizons Speakers Bureau of the New Jersey Council for the Humanities, a state partner of the National Endowment for the Humanities.

Join us for this special night highlighting one of the most important families of New Jersey! The Roebling Story is a classic American saga spanning the continent and more than 200 years since John A. Roebling’s birth in 1806. The Roeblings built the Brooklyn Bridge – the “universal symbol of New York” – and the great cables on the George Washington and Golden Gate Bridges. The John A. Roebling’s Sons Company produced wire rope and wire products that helped shape modern life and provided livelihoods for tens of thousands. The Roeblings also created America’s “first sports car” and built one of America’s best company towns – “a model in every respect.” Roebling Mills in Trenton now serve new uses, and the Roebling Museum in Roebling, NJ, celebrates the remarkable legacy.

Lecturer Clifford Zink is an historian and preservation consultant based in Princeton. In 2011 he received the John A. Roebling Award from the Society for Industrial Archaeology’s New York-New Jersey Chapter for an outstanding contribution to documenting or preserving the industrial heritage of the greater New York-New Jersey area. Mr. Zink has an MS in Historic Preservation from Columbia University's Graduate School of Architecture, Planning and Preservation. He has served as consulting curator at the Roebling Museum and wrote and directed its orientation film, “Roebling Stories.” He is the author of seven books that have received six awards, including the N.J. Studies Academic Alliance’s 2012 Author’s Award in popular non-fiction for The Roebling Legacy.
